EXPERIENCE

Logitell, Hyderabad — Junior *Software Developer*

Sep 2025 - Nov 2025

- Fixed bugs in both frontend and backend parts of the application.
- Implemented multi-language (i18n) support using NextIntl in Next.js application.
- Updating existing pages and components to support localization and dynamic language switching.
- Tested features and fixed issues found during testing.

Denaurlen, Hyderabad — *Software Engineer*

Nov 2024 - July 2025

- Built and maintained an authentication system for ed-tech applications using node.js and Express.
- Implemented core user flows including signup, login, & dashboard using Next.js and React.js.
- Implemented token-based authentication using access token and refresh tokens.
- Worked closely with QA and design teams to improve the UI stability, Usability and delivery speed.
- Improved code organization and reusability across backend services.

Freelance, Hyderabad — Freelancing

Aug 2024 - Nov 2024

- Developed 2 web apps using React, Typescript, Node.js, and MongoDB with authentication, dashboards, and CRUD functionality.
- Improved performance through lazy loading, and database indexing, while fixing UI issues, bugs, and writing setup documentation.

Delta AirLine, Atlanta — *Software Engineer*

Jan 2023 - Aug 2024

- Helped implement small UI changes in React.js screens related to flight search and booking flow.
- Updated existing UI components based on design and feedback. Fixed minor UI bugs and made small improvements.
- Used existing REST APIs to display data in frontend.
